SUMMARY

- Passionate Frontend Software Engineer with hands-on experience in building responsive, user-friendly websites and applications.
- Proficient in HTML, CSS, JavaScript, and React, with experience in integrating APIs to enhance user experience.
- Strong skills in performance optimization, responsive design, and code quality assurance.
- Eager to apply my skills in a Frontend Developer role to contribute to innovative projects and grow in a dynamic team.

EDUCATION

Bachelor of Science in Computer Science, University of The People

Udacity Nanodegree Program

Programming Fundamentals

SheCodes Bootcamp

Front-End Development

ALX AiCE (AI Career Essentials)

Artificial Intelligence Career Readiness Program

- Gained hands-on experience with AI tools for work management, data analysis, and content creation.
- Developed practical, real-world skills through immersive projects and enhanced meta-skills like critical thinking, problem-solving, and communication.

PROJECTS

E-commerce Website

Technologies: HTML, CSS, JavaScript, Responsive Design

- Developed a responsive multi-page e-commerce website using HTML, CSS, and JavaScript, ensuring a seamless user experience across devices and browsers.
- Implemented modern design principles to create intuitive navigation, appealing aesthetics, and user-friendly layouts for improved customer engagement.
- Optimized user experience.

Portfolio Website

Technologies: HTML, CSS, JavaScript, Responsive Design

- Built a responsive, multi-page portfolio website showcasing projects, skills, and experiences.
- Optimized for performance and ensured cross-browser compatibility.
- Integrated animations and interactive features using JavaScript to enhance user experience.
- Focused on UX/UI design principles to ensure ease of navigation and a visually appealing layout.

Weather App

Technologies: HTML, CSS, JavaScript, API Integration, AJAX

- Built an interactive weather application that fetches real-time weather data from an API.

- Created a Weather App that not only displays current weather conditions but also forecasts future weather data for multiple days.
- Integrated a weather API to retrieve real-time and forecast data.
- Applied asynchronous programming principles using AJAX to load data smoothly and efficiently.

English Poem Generator

Technologies: HTML, CSS, JavaScript, AI Integration

- Developed an interactive English Poem Generator that uses JavaScript to generate unique, creative poems with AI-based content generation techniques.
- Focused on an intuitive user interface and engaging experience by designing clean, responsive styles with CSS and HTML.

WORK EXPERIENCE

Front-End Developer - Bright Site

April 2024 - Present

- I am working as a Front-End Developer at Bright Site, where I am contributing to building responsive, user-friendly web interfaces. Focused on implementing designs using HTML, CSS, React, and JavaScript, optimizing for performance, and enhancing user experience through interactive features.

Sales Officer - Balaji Manufacturing PLC, Addis Ababa

June 2022 - January 2023

- Developed and implemented a system to efficiently prepare sales and expense reports that contribute to the efficiency of the department and to organizational performance goals.
- Established a relationship with potential clients.
- Informed customers of the company promotions.

SKILLS

-Languages: HTML, CSS, JavaScript

-Frameworks & Libraries: AJAX, JS Plugins

-Tools & Technologies: API Integration, Responsive Design, Git/GitHub

-Additional Skills: AI Basics, UX/UI basics, Problem-Solving, Hosting, UX Research, AI Integration, SEO, Debugging and Testing, Responsive Web Design, DOM Manipulation, JSON
